TRENDS

The Company is primarily focused on precious metals mining projects, specifically those in production and at a late stage of development.

Issues of seasonality or market fluctuations have a minor impact on the expenditure patterns. The Company expenses its exploration, project investigation and general and administration costs, and these amounts are included in the net loss for each quarter. The Company's treasury, in part, determines the levels of activities.

The level of the Company's project investigation expenditures is largely determined by the strength of the resource capital and commodity markets and its ability to obtain investor support for its activities.

RESULTS OF OPERATIONS

During the three months ended June 30, 2019, the Company recorded a net loss of \$347,231 (2018 – \$474,071).

The significant changes between the current period and the comparative period are discussed below:

Consulting fees in the current period included \$10,000 (2018 – \$Nil) paid to the Chief Executive Officer, \$15,000 (2018 - \$15,000) paid to the former Chief Executive Officer, \$22,500 (2018 – \$35,000) paid for the services of the Chief Financial Officer, Corporate Secretary and related services. Consulting fees in the prior period also included \$107,982 paid to Endeavour Financial and \$202,933 paid to a third party, who became a related party in July 2018.

Project evaluation and business development fees for the three months ended June 30, 2019 were \$205,000 compared to \$50,000 in the prior period. As described above, the Company engaged SGG and Endeavour Financial to provide the Company with financial and technical expertise for a fee of \$12,500 per month. In April 2019, these agreements were terminated and upon termination, the Company paid \$180,000 in termination fees as described above.

LIQUIDITY AND CAPITAL RESOURCES

The Company has not generated revenues from operations and as at June 30, 2019 had an accumulated deficit of \$9,804,756 and working capital of \$2,219,872. Management estimates that these funds will provide the Company with sufficient financial resources to carry out currently planned operations through the next twelve months. However, should the Company be successful in negotiating the acquisition of one or more investments the Company may need to raise additional financial resources. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.
